

City of DeSoto

Memo

Date: February 17, 2009

To: Jim Baugh, City Manager

From: Camelia Browder, Managing Director of Financial Services

Subject: January 2009 Financial Reports

The January 2009 Financial Reports for the General Fund and the Water and Sewer Fund are attached to this memo. The summaries of major revenues and major expenditures for the General Fund and the Water and Sewer Fund cover the majority of the total City budget and are listed separately. The third and fourth reports address other funds.

General Fund

Revenues: General fund revenue for Property Taxes has been coming in about the same as in past years except for a timing difference. Attached behind the financial statements is a report from the Joint Tax Office stating comparable collection rates for the City of DeSoto when all tax receipts postmarked prior to or on January 31, 2009 were processed. The financial reports presented by city staff for January show only those cash receipts received from the tax office prior to February. With the tax office staffed by fewer seasoned employees this processing took a bit longer this year and the mail received has been a bit slower in coming in. Interest revenue is lower than projected due to rates going down dramatically. Licenses and permits is lower than projected due to the slow down in permits being issued. Fines and Forfeitures is below expectations due to lower revenue from traffic citations and warrant collections. Sales taxes were down for the month of January due to lower sales in November 2008.

Expenditures: Total General Fund expenditures were within expectations except for the Finance Department which paid the accrued vacation and sick leave to the Tax Office Manager when he left to take over the County Tax Office. The cost of the tax office is split between the city, the school district and the City of Glenn Heights at year end based on the tax assessment of the entity, so there will be an adjustment to offset part of this cost. The non-departmental budget is over budget year to date due to the Rites of Passage payments.

Water and Sewer Fund

Revenues: Water and Sewer Fund revenues are doing a bit better than budget because the past few months have been warmer and dryer than usual.

Expenses: The year to date expense trend is slightly less than expectations (33.7% vs. 38.6%).
