The Library Book Drop Will Be Moved Due To Ongoing Construction

On Monday, April 27, 2009 the Library Book Drop will be moved from the drive on the north (back) side of the Library to an area near the front door of the Library. This will be the permanent location for the Book Drop now that construction on the mixed-use development is nearing completion. To drop off your books, just enter the drive from Pleasant Run Road, place the book in the drop and continue through the new Parking Garage exiting on Hampton Road.

Once the Library Book drop is moved, the fire lane on the north (back) side of Town Center will close for repairs and construction. You will no longer have the ability to drive around the back side of the building and exit on to Hampton Road. Barricades will go up at the traffic circle on the east side of City Hall and traffic will not be allowed to continue to the back side of the Recreation Center, Civic Center or Library. This access is expected to be closed up to 45 days. Civic Center Patrons are asked to use the front entrance off of Pleasant Run Road and will be allowed to use the temporary loading zone area between the Civic Center and Library to unload equipment for your event. You are asked to move your vehicle from the temporary loading zone as quickly as possible and park in the Parking Garage.

Construction of the mixed-use facility at Town Center is nearing completion and if you haven't seen the new facilities, we invite you to come and take a look. If you have any questions regarding access to the facilities at Town Center, please call City Administration at 972 230-9643.

The Library Book Drop will be relocated to area near the front entrance of the Library seen on the right side of this picture. Beginning Monday, April 27th, library patrons can drop their books in the box and continue through the new Parking Garage exiting on Hampton Road.
